

BETHLEN GÁBOR  
HUNGARIAN LANGUAGE SCHOOL

I learn Hungarian because my wife is Hungarian and she loves to communicate in Hungarian. Also, understanding the language helps to communicate with her family and friends when they are visiting or when we visit Hungary.

I recommend the course to anybody that wants to visit Hungary or persons who have some relation to Hungary. (wife, girlfriend, parent, friend)

My study technique is to learn words first and then build sentences after. I prefer when my wife repeats Hungarian words that are common in daily use, which makes it easier to memorize. Also, I like to read a sentence in Hungarian and then translate into English.

The Hungarian language course covers a variety of topics in language and culture. I have learned how to pronounce and write words in Hungarian and how to communicate in typical situations (restaurant, store, train station, etc.). I have learned more about Hungarian unique history and music.

**Köszönöm, Marcel**
